

SENATOR SIECK: Yes, Mr. President, members of the body, I would sure encourage everyone to vote in favor of this bill. This is really needed to correct a situation that we have out there and I can assure you, the body, that I will work with Senator Kremer to come up with a proper bill and it will not be the committee bill as you see it today. We are going to take a lot of things out of there and I will fight for that, one of them would be the Lamb amendment. I can see what was happening, the penalty clause another, now those things have got to be out of there. I know that I am going to have a lot of people object to me saying this but I feel that we have got to do this if we are going to have anything and I highly encourage you to move this bill across so we can get it in Select File and come up with a proper bill.
